POLITICS ASSUMES SENSATIONAL TURN; EIGHT PROMINENT MEN SUED

Suit for Libel is Brought against Substantial Farmers by McPherson Campaign Manager because of Letter Sent out to Voters in which Butt's Election is Advocated. Daniel M. Sheely, First Signer on List, is not Sued. All the Others are Served with Subpoenas.

The political campaign for president judge assumed the most sensational, if not the most serious, aspect of any fight waged in the district for many years when suit was entered late Tuesday afternoon by McPherson's campaign manager against eight prominent farmers of the county, alleging libel in a letter sent broadcast to voters.

This letter, which now becomes the most famous of all campaign literature, was sent in an envelope bearing the name of Daniel M. Sheely, of Franklin township, and Mr. Sheely's was the first name to appear on the list but no action has been taken against him. The others, all well known men in the county, have been served with subpoenas.

They are: J. C. Redding, Cumberland township; P. J. Schriver, Huntington township; Alex. H. Rebert, Union township; W. A. Bigham, Cumberland township; Park Gardner, Huntington township; L. C. Myers, Mt. Pleasant township; J. L. Bosserman, Reading township; and W. A. Diehl, of New Oxford.

Suit was entered by John D. Keith as attorney for J. D. Swope, who is the manager of the McPherson campaign. No bill of complaint has been filed nor has any sum of damages been named. The simple statement of "Trespass for Libel" is the only thing that appears on the docket. The letter which instigated the suit is as follows:

October 23, 1915.

Dear Sir:—

As Democratic and Republican farmers we appealed to you in our letter of Sept. 14th to support J. L. Butt for President Judge at the primaries and we now strongly urge you to give him your vote at the election, Nov. 2nd. His legal training and experience well qualify him for the duties of the office and his experience as a farmer specially fits him to preside as a judge over courts of a district in which agricultural pursuits engage the attentions of most of the people. As a business man he would give a most efficient administration. As one of the heaviest taxpayers he would be interested in cutting down the unnecessarily heavy court costs and expenses and thereby save taxes for the people. As an employer he is interested in the welfare of our laboring people and always considerate of their interests.

Mr. Butt's campaign in being clean, dignified, consistent and honorable has been placed in vivid contrast with that of his opponent, Mr. McPherson, who first obtained an endorsement "as the greatest hope of the temperance people" and then the managers of his campaign spent money freely for liquor and told licensed dealers that their licenses would be safe with McPherson on the Bench. Is that the proper attitude for a candidate for Judge, whereby some of the people are bound to be fooled and deceived? We think his course deserves condemnation. The declaration of Mr. Butt that he would do his duty "impartially and conscientiously" is so refreshingly straightforward that we believe you will feel gratified in supporting Mr. Butt and elevating him to the Bench. Let your vote be for Mr. Butt.

It is understood that Mr. Swope objects to the part stating "the managers of his campaign (McPherson's) spent money freely for liquor." He claims he has endeavored to run to earth statements of this nature which have been spread about the district and, when this appeared under the signatures of the men above named, he took the action to protect his good name.

Several of the men named in the action claim they will be able to substantiate all that was said in the letter and that they welcome the opportunity to give the facts due publicity; others said they felt sure it was a political move and would fall through as soon

as the election is over. All of the men were highly indignant.

When it became known, in the early part of Tuesday evening, that the suits had been brought little else was talked of at the various business places in town. After the Prothonotary's office opened this morning and the docket showed no action against Mr. Sheely, who was the one most prominently identified with the letter, curiosity concerning the omission of his name occupied those interested. The actions are returnable for the November term of court, which, of course, does not convene until after election. What effect it will have upon the vote is the thought now uppermost among men of both parties over the entire district.

NEW ORDER

Nearly All Our Postmasters are Affected by it.

The thirty four third and fourth class post offices in Adams County will all receive their supplies in the future from York instead of from Washington according to an order issued by Postmaster General Burleson.

According to the new plan the state of Pennsylvania has been divided into 28 districts, each district comprising one or more counties. The majority of the districts contain two, three or four counties. Where the counties are small there may be as many as nine counties in one district.

An order states that all general stock, supplies of blanks and stationery for postoffices of the third and fourth classes in the counties noted will be furnished upon requisition on the postmasters indicated. In the case of Postmaster Peeling, of York, he will be required to make requisition for the supplies of 34 third and fourth class postoffices in Adams county and 78 offices in York county. In Adams county two of these are third class offices, and 32 fourth class offices. In York county 10 are third class offices, and 68 fourth class offices.

The new plan will result in much additional work for the York postmaster. He will be required to make requisition on the department at Washington for the supplies, and the postmasters of the third and fourth class offices will in turn make their requisitions for supplies on him for the following year. This is the month that the postmasters make their requisitions for their yearly supplies and the list is now being compiled at the York postoffice preparatory to being sent to Washington.

GOOD SHOW

Visiting Young People Know how to Sing and Dance.

Hanover's amateurs gave a most creditable performance of the musical play "Powhatan" in Brua Chapel Tuesday evening. The singing was unusually good for a home talent performance, the costumes were elaborate and attractive, and the dancing really worth while. All the play needed to complete it was appropriate scenery which was not available in Brua Chapel. A fair sized audience enjoyed the evening.

COX-CRAPSTER HOME WEDDING

Popular Agent of Reading Railroad is Married in Washington. Will Reside on Carlisle Street upon Return from Honeymoon.

Miss Alice Crapster, of Washington, D. C., and John A. Cox, of Gettysburg, were married to-day at the home of the bride in Washington. The ceremony was performed in the presence of a number of relatives and friends. After a short wedding trip they will come to Gettysburg the latter part of the week and will reside at the corner of Carlisle and Water streets, where Mr. Cox recently moved.

The bride is a daughter of the late Mr. and Mrs. Woods Crapster. She has been a more or less frequent visitor to Gettysburg with relatives here and has a number of friends and acquaintances in town. For a number of years the family resided at Taneytown but, after the death of the parents, Miss Crapster and her brother went to Washington where they have since lived.

Mr. Cox has for many years been the local agent for the Philadelphia and Reading Railway Company and, in addition, has been actively interested in numerous movements looking toward the advancement of the town. He was among the first persons to urge the establishment of the Chautauqua here and it was in part through his influence and interest that the Philpoteaux picture of the Battle of Gettysburg was given a permanent home at Gettysburg.

WEALTHY WOMEN VISIT THE TOWN

Donor of Half Million Danville Hospital Spends Two Days on the Battlefield. Former Hotel Owner here. Mrs. Wanamaker, too.

Mrs. A. A. Geisinger, who recently gave and endowed the finely equipped hospital at Danville was a visitor in Gettysburg on Tuesday. Mrs. Geisinger is a woman almost ninety years of age but she took a keen interest in the battlefield and enjoyed thoroughly her trip here. Her \$650,000 gift to Danville did much to alleviate suffering at the time of the recent typhoid fever epidemic there, the hospital being opened before the appointed date in order to receive patients. While here Mrs. Geisinger and her friends were registered at Hotel Gettysburg.

Mrs. John Wanamaker, of Philadelphia, and friend, Miss Puhler, of Detroit, spent to-day at the home of Mrs. Guyon H. Buehler, Carlisle street. They came in Mrs. Wanamaker's large Packard limousine from Washington and toured the field this morning. This afternoon they left on their return to Philadelphia.

Mrs. K. M. Mitchell, of Philadelphia, for many years owner of the Aldine Hotel spent Tuesday here at the Hotel Gettysburg. Henry Scharf, manager of the local hotel, was formerly one of the managers of the Aldine under Mrs. Mitchell. With her on the motor trip were her two sisters, the Misses Ehrisman. They were traveling in Mrs. Mitchell's large Pierce-Arrow limousine.

W. J. Friehofer was a motor visitor to Gettysburg yesterday. He is a son of the proprietor of the large Friehofer bakeries in Philadelphia. During his stay here he was a guest at the Lincoln Way Hotel.

WORKERS PLAN SUNDAY MEETING

Prominent Association Official will Make One of the Addresses at District Convention. Will Hold Two Sessions.

Special preparations are being made for the conference of the Sixth District of the Adams County Sabbath School Association which will be held next Sunday in Christ Lutheran church, Aspers. Among the speakers secured for the meetings is W. D. Reel, prominent throughout the State in the work which he represents.

There will be sessions afternoon and evening, and all superintendents and two delegates from each school in the district are expected to attend, while efforts are being made to secure as large a representation from the various schools as possible. All Sunday School workers will be welcome. All are asked to bring along their luncheons which will be served during the social hour between the two sessions.

The first session at 1:45 will open with a song service, the devotions conducted by Rev. Joseph Arnold, and echoes from the recent State convention at Erie. Mr. Reel, who is State Superintendent of the Home Department, will make an address on "Home Department Work and Temperance." It will be followed by a conference. The afternoon will close with the reports of the various department superintendents.

From five o'clock to seven o'clock the social period will be held and at the latter hour the evening session will convene. A half hour song service will precede an address by Prof. Roy D. Knouse on "The Teacher's Opportunity and Responsibility for Service," and one by W. D. Reel on "The Organized Adult Bible Class Work." A conference will follow.

The meeting will be held "rain or shine" and persons are assured of ample shed room for their teams in the event of unfavorable weather.

CAN'T SELL THEM

None Can be Offered for Sale. Hunters' Should Have a Care.

"Hunters this year must observe the new law relating to the killing of rabbits," said Secretary Kalbfus, of the State Game Commission, "and that is that no rabbits killed in Pennsylvania may be sold in this State. Heretofore it has been the practice for rabbit hunters to slaughter the animals indiscriminately, and not infrequently we heard of hunters killing thirty in a week, and they were regarded as great hunters. But they did not kill those rabbits for home consumption or to give to their friends. They killed them to sell for cash, and it was notorious that some of them were supplying the city market."

"Hereafter no rabbit shot in Pennsylvania can be sold in Pennsylvania. If they are killed in other States they may be brought into this State and sold but the sellers must prove that the rabbits were not shot in this State, or they will be subject to a fine of \$10 for each rabbit they sell." The rabbit season will open on next Monday, November 1, and close on November 30.

FRENCH INVADERS DEFEAT BULGARS

British Forces Are Advancing to Aid Serbs.

AMPLE ASSISTANCE PROMISED

Bulgarians Have Marched Across the Small Kingdom—Pro-Allies in Rumania Demand Mobilization.

London, Oct. 27.—The race for the road to Constantinople has reached an exciting stage. The Bulgarians are within a few miles of forming a junction with their Austro-German allies, while the French, in small force, have already joined the Serbians.

The French force which invaded Bulgarian territory after routing the left wing of King Ferdinand's army, completely defeated the Bulgarians at Strumitza, where they made a stand, according to advices from Paris.

British forces totaling a brigade (4000 men), are on the way from Salonika to join the French and Serbs.

The allies have asked the Serbian headquarters to resist the Teutons and Bulgarians for only five days more, by which time effective aid from the allies will be forthcoming, says the Daily Telegraph's Nish correspondent. The correspondent adds that, judging by the fine spirit the Serbian troops are displaying, they can hold out double that time.

A Salonika despatch quotes a French officer as saying:

"The situation in Serbia is grave, but it is in no wise desperate. The Austrians and Germans have advanced less than twelve miles on the Danube front, notwithstanding their numerical superiority.

"The line now held by the Bulgarians may prove to be perilous to them. You can say the French are fully alive to the situation and are not at all discouraged."

With Uskub in their possession, the Bulgarians now hold with strong forces the Nish-Salonika railroad between Vranja and Uskub, a distance of about fifty miles. They have thus cut direct communication between Nish and Salonika, leaving open only the uncertain means of transit over the Monastir-Pristina line.

An Exchange Telegraph company despatch from Athens states that Bulgarian troops have occupied Prizrend, which is only five miles from the Albanian frontier in western Serbia. If this report is true, it means that a Bulgarian army has crossed Serbia by way of Uskub, cutting off the northern half of the kingdom from the southern half.

As Bulgaria has refused to allow the transit to Rumania of goods landed at Salonika, even when they were imported before the outbreak of the war, Rumania is retaliating by refusing to allow the transit of Bulgarian goods.

She has therefore practically closed her frontier, and commercial relations between the two states is completely interrupted.

Bucharest despatches to Amsterdam say that calls for the overthrow of Premier Brantiano of Rumania were shouted during a meeting in Bucharest presided over by two former ministers, at which a resolution was adopted favoring Rumania's intervention in the war.

The resolution demanded mobilization and "immediate action to prevent a junction of the Germans, Hungarians and Bulgarians which is threatening the existence of Rumania." A procession was formed, it is stated, but the police barred the road.

According to Sofia despatches, the Bulgarian wounded from Ploet and Timok are arriving there in thousands and the spectacle is not without its effect on the civil population.

FRENCH PRESS ON

Capture Another French in Fierce Battle in Champagne.

London, Oct. 27.—The great battle in Champagne precipitated by the French assault resulting in the capture of the German defence work known as "La Courtine" (the curtain), still continues.

The war office characterized the conflict as one waged foot by foot and stated that the French troops had gained another trench and checked the German counter attacks.

It is believed that the entente allies are again preparing for an offensive, which may prevent the Germans from diverting any of their forces to the eastern front.

In a furious battle to straighten their line in Champagne and so clear the way for another thrust at the Bazancourt-Chalons railway, the French seized by storm strong German positions which form the key-work of the salient southeast of Taurhure.

Amnesty in Hungary

Amsterdam, Oct. 27.—A Budapest despatch says Emperor Francis Joseph had declared an amnesty for all political offences committed in Hungary before the war. The amnesty especially includes Socialists.

KING PETER

Servian Ruler Says He Will Die With Country.

WILL NOT SURVIVE COUNTRY

King of Serbia Says He, Too, Will Die if Nation Perishes.

Rome, Oct. 27.—Telegrams from a German source state that the king of Serbia has issued the following proclamation:

"Age has taken my arms from me. I, who was elected your king, have no longer the force to guide my armies to the war and the defence of the fatherland.

"I am but a feeble old man who can do nothing but bless Serbia's soldiers, citizens, women and children, but I swear to you that if a new invasion shall bring upon us the shame of being conquered, I shall not survive the ruin, but I, too, shall die with the country."

King Peter of Serbia, successor of the murdered Alexander, is seventy-one years old.

CZAR'S LINES HOLD INVADERS AT BAY

Counter Blows by Russians Check German Drive.

London, Oct. 27.—Field Marshal von Hindenburg, who broke through the Russian lines, both on the Dvinsk and the Riga fronts, has again been halted.

The czar's forces, pressed back as they have been again and again since they reached the Carpathians, but rallying as they have rallied just as often, have once more resumed the offensive and are beating hard at the invaders' positions.

Berlin claims no progress for the German forces in the north. Instead, the official communication tells how Russian attacks southeast of Riga and northwest of Dvinsk were repulsed. Apparently the defenders are tireless in their counter-attacks on the German lines. North of Iloukist, captured by the invaders, Berlin admits that von Hindenburg's troops were forced to withdraw to the western bank of the Iloukist river, which they had crossed.

In the pitched battle now raging in the Riga and Dvinsk regions Petrograd officials see the crucial struggle for the northern cities. How uncertain is the situation has been indicated in the official statements, which tell how the advantage veered constantly from one side to the other.

Fountain Pen Deals Death

New York, Oct. 27.—One of the most remarkable murders in the history of New York occurred when a fountain pen was used to inflict a mortal wound upon Daniel McLoughlin, of Brooklyn. The pen had been driven into McLoughlin's left eye so deeply that none of the barrel was visible. It was not known how McLoughlin had been killed until an autopsy was performed.

PLOT TO WRECK MUNITION PLANT

The Fifth German Conspirator Confesses.

SEEK THOSE "HIGHER UP"

New Prisoner Tells of Intention to Destroy Chemical Factory at Roosevelt, N. J.

New York, Oct. 27.—Confession that the four Germans arrested by secret service agents in a conspiracy to blow up vessels leaving this port with munitions for the allies, also had planned to destroy the big plant of the American Agricultural company, at Roosevelt, N. J., is declared by the police to have been made by Paul Seib, another man who has been apprehended.

Technically, Seib is not under arrest, but is being held as a material witness against Lieutenant Robert Fay, the German army officer who is said to be the active head of the conspiracy, and Walter Scholz, Fay's brother-in-law, who were arrested Sunday, near Grantwood, N. J., while trying out explosives.

The plant at Roosevelt is a subsidiary of the Standard Oil company, and manufactures chemicals used in high grade explosives. Seib is said to have purchased explosives for Fay and Scholz. He told the federal investigators that the conspirators knew the Roosevelt concern was supplying large quantities of materials for the making of powder to ammunition factories.

The place was to have been blown up Thursday night, Seib is asserted to have said, but the guards were so vigilant that the plotters decided to defer their action until a more propitious occasion.

Chief Flynn, of the federal secret service, said Seib had told him that Fay had said the proper way to stop the shipment of munitions to the allies was to blow up the chemical works. He said it was useless to try to blow up shell and powder works, because those plants could make repairs easily. If chemical plants were attacked, repairs could not be quickly made.

Fay also, the chief said, had ridiculed some bombs found on ships in the harbor, declaring they were no good, and made by amateurs. "Joke bombs," he termed them. According to the chief, Fay said that when he left Holland for America on the Rotterdam, he carried a letter to a very high official, but on the first day out, he destroyed it, fearing he might be searched.

Altogether, five men, including Seib, are now held by the authorities. Those in addition to Fay and Scholz are Paul Deache, of Jersey City, and Dr. Herbert Kienzie, manager of a clock company, who is said to have aided the other suspects to obtain explosives which the police found in their possession.

It was said that other arrests may be made of men now operating in Philadelphia, Baltimore and other eastern cities.

Kienzie denies guilt. Fay, Scholz and Paul Deache declare they were the only persons involved in the conspiracy. Fay says Captain Boy-Ed and Captain von Papen, of the German embassy, enjoined him not to fasten his bombs to any vessel in American waters.

Chief Flynn, asked if he considered that Captain Boy-Ed and captain von Papen had been implicated in any way, replied that Fay absolved them from all participation.

PUT TEUTON LOSS, 5,000,000

German Casualties from Oct. 11 to 20 Figured at 57,424.

London, Oct. 27.—The Nieuwe Rotterdamse Courant, quoted by Reuters' Amsterdam correspondent, gives German losses from October 11 to 20 at 54,424 in dead, wounded and missing.

The total Prussian losses are given as 2,021,078.

The newspaper says there have also been issued 228 Bavarian, 209 Saxons, 286 Wurttemberg and fifty-three naval casualty lists, as well as lists of officers and under-officers with the Turkish army. The Courant figures the total losses to the central powers at 5,000,000.

DECISION AIDS CHILD WORKERS

Employment Certificates Declared Valid.

Harrisburg, Oct. 27.—Minors holding employment certificates will not have to take re-examinations. Those now held by minors are to be considered valid until their holders reach the age of sixteen.

These points in the preparations for administration of the state's new child labor act were cleared up in an oral decision given by Attorney General Brown to the department of labor and industry. The opinion was given to enable the department and the bureau of vocational education to advance their preparations for enforcement of the act.

Between 18,000 and 20,000 children in Philadelphia alone are affected by the decision and probably as many more throughout the state.

This interpretation of the new act, under which the law requires an educational test and day continuation school attendance for eight hours a week for children between the ages of fourteen and sixteen, will be made to apply only to children entering employment after the first of the year.

It will also go far in easing up the complications which were threatened in many school communities, including that of this city, by the wholesale discharge of youngsters now employed.

NURSE'S ERROR COSTS LIFE

Hospital Patient Dies of Poison Given in Mistake for Medicine.

Atlantic City, N. J., Oct. 27.—Through the mistake of a nurse in administering an acid instead of a medicine of similar appearance, it is said, Joseph W. Thomas died in the Atlantic City hospital on October 14, and two other patients were seriously affected.

The facts were suppressed, but were accidentally learned, and though information was withheld at the hospital, the death from a nurse's mistake, as told, was admitted by Dr. Souder, county physician.

Murderer Ends Life in Cell

New York, Oct. 27.—Joseph Frick, convicted of murder on the testimony of his seven-year-old son, committed suicide by hanging in "homicide row" in the Raymond street jail. The dead man had been convicted of killing his nineteen-year-old son and was to have been sentenced to life imprisonment.

Brief Missives.

"If I had more time," a witty Frenchman used to write, "I could have made this letter shorter." Voltaire is credited with two of the briefest on record. One said, "Alas," and the other "Bravo." They were in recognition of a woman's bereavement and remarriage.

Imitation Good and Bad.

The instinct to imitate is, like most other instincts, highly serviceable. But it has to be kept under control. Before we yield to it we ought to be sure that what we imitate is good. One of the most pitiful things in the world is to see people imitating what is unworthy under the impression that such imitation seems creditable.

Original Forms of Life.

It is believed that the original forms of life began in the ocean many millions of years ago, and at no time since has life there ceased. Many of the earliest forms are now extinct; others have gradually increased in number and variety from their beginning to the present time. How long ago life began no one has definitely determined; but it is known to have been many millions of years ago for the remains of extinct animals and plants are found in the oldest sedimentary rocks.

Wear Furs of Necessity.

Throughout the cold latitudes of China during the winter the Chinese of all classes wear fur, wool or hair-lined garments. Even the coolies have their sheep or goat skins, and people of the middle and official classes have many sets of garments lined with the richest furs. Their houses are rarely heated to a comfortable temperature, and in consequence they wear their furs both indoors and out.

Life in its Various Forms.

The sea teems with plant and animal, and it has been estimated that the amount of life in the sea exceeds that of the land, square mile for square mile. Animal life is found nearly everywhere, even at the greatest depths; it flourishes best at or near the shore. On the other hand, plant life seems to be absent over the bottoms of the ocean basins, but plentiful at the surface where the sunlight plays an important part in its growth.

Bird Travelers.

The greatest travelers in the world are arctic terns which fly 22,000 miles a year. Humming birds have been known to fly the 700 miles across the Gulf of Mexico. At a point half-way across they stop humming "Dixie" and begin "La Paloma."

COST OF LIVING UP 15 PER CENT

People of United States Thus
Pay a Direct War Tax.

HUGE EXPORTS THE CAUSE.

Sugar, Meat and Flour, in Great Demand, Have Steadily Increased in Price Since the Beginning of the Struggle in Europe—Big Crops Do Not Reduce the Cost to Consumer.

The cost of living in the United States has been forced up fully 15 per cent today, directly and indirectly, by the European war from what it was in July, 1914, before hostilities.

With the huge exportation of food stuffs to the allies the prices of food commodities have gone soaring. Meat, flour and sugar—the three staples of diet which have been shipped in vast quantities to Great Britain and France—have increased in price in New York city from 11 per cent to 20 per cent in the last fifteen months.

America Helps to Pay.

The war is making itself felt in America, keenly striking at a vital point in national life. Indirectly the nation is paying a heavy tax to help feed countries whose normal method of obtaining their food has been stopped or interrupted by the war, and the tax is levied on the point where the burden already is great—the cost of food.

Since the beginning of the war on July 28, 1914, the rise in costs of meats has averaged 12 per cent, flour has gone up 20 per cent, sugar is 11 per cent higher, and eggs cost 18 per cent more. The average of the advance in these four necessities of life amounts to 15 per cent. In the same period the exports of meat, flour and sugar have increased enormously. In the case of fresh beef 4,000 per cent more beef was exported from New York in July, 1915, than in the corresponding month the previous year, the month before the war.

The effect of the high prices induced by this excessive exportation is having a serious effect on New York city. New York is composed of families whose breadwinners average from \$17 to \$20 a week. Granting that a family whose yearly income is \$1,000 spends \$800 of that for food, the 15 per cent rise in the cost of living means an increased expenditure for maintenance of \$90 a year.

This added burden of \$90 is in the way of a direct tax. The family income is no greater, so this additional tax must be met by cutting on some of the other expenses. This money must be taken from the amount of the savings, the amusement fund or what was intended for the education of the children.

Meat has been one of the commodities most closely affected by the swollen exportation to supply the armies of Europe. Since last July prime rib roast beef has increased 16 per cent, pot roast 8 per cent, porterhouse steak 20 per cent, sirloin steak 7 per cent, round steak 8 per cent and chuck steak 17 per cent—an average increase of 12 per cent. The housekeeper is forced to pay today from 2 to 5 cents more per pound for meat.

Some Illuminating Figures.

Although the United States in the corresponding month in 1913 only shipped 2,200,000 pounds of sugar from New York, in the first twenty-four days of August, 1914, this country had exported to England 39,919,100 pounds, to Ireland 17,966,296 pounds and to Scotland 1,170,850 pounds. The price of sugar today wholesale is \$4.90 for 100 pounds, an increase of 70 cents from the early price of July, 1914.

Despite a bumper wheat crop in this country and a record breaking crop in Canada the price of flour in the United States is exceedingly high. Flour at retail sells now at \$6.50 to \$7 a barrel, an increase of about \$1 a barrel over the price paid in July, 1914. Last February flour jumped to \$8.50 a barrel for the best grades when the export trade was so heavy that it looked as though our surplus would be used up far in advance of the harvesting of the new crop.

Other staples that have gone up in price, being influenced indirectly more or less by the war, are eggs, butter, poultry and pork. Eggs have gone up in price, the increase in fresh eggs being 6 cents a dozen and selected eggs selling at 8 cents higher than they did a year ago last July. Fresh eggs have increased from 34 to 40 cents a dozen and selected eggs from 36 to 44 cents a dozen.

Butter is selling about 4 cents higher, a good grade of butter which formerly retailed at 32 cents now is sold at 36 cents, and special grades which formerly went at 36 cents now are held at 40 cents.

Pork has advanced uniformly from 1 to 2 cents a pound, and poultry has gone up approximately the same amount. The increase in pork, poultry, eggs and butter may be explained by the increased cost of producing these products due to the advance in grain, due in turn partially to the European war.

Ten-year-old Prince at Front.

The Russian emperor when he went to the front was accompanied by the ten-year-old Crown Prince Alexis, who is "hetman of all the Cossacks" and colonel of regiments of artillery, infantry, engineers and dragoons.

Few May Transact Business.

The British house of lords may transact certain business when there are only three members present, not necessarily including the lord chancellor.

HOWARD J. HARTMAN

Republican Candidate

FOR SHERIFF

To the voters of Adams County

Your vote for Howard J. Hartman for Sheriff of Adams County on November 2, will insure an efficient administration of this important office. As a successful farmer, born and raised in Mt. Joy Township; a careful and practical business man, of well known integrity and wide experience, his candidacy will naturally appeal to the intelligent voters of Adams County.

The office of Sheriff is peculiar in that it effects particularly the private and public interests of the individual. If his duties are discharged with fairness and impartiality, the best interests of the citizens are conserved. Mr. Hartman possesses all of these qualifications.

Mr. Hartman has never held a public office; he is in the prime of life, and will, if elected, personally discharge the duties of the office. The voters of Adams County can therefore be assured that the election of Mr. Hartman, as Sheriff of Adams County, will guarantee not only a careful, honest and economical administration, but also will protect and safeguard the private as well as the public interests of our citizens.

Mr. Hartman therefore deserves your support, and your vote and influence on November 2nd, and will be appreciated.

The structure is enclosed within a decorative, oval frame. Inside, there is a large, flat, rectangular area supported by a network of beams and struts. Brumled Peaches.—Make a sirup in the same way as for preserving. Let it come to a boil and skim it. Lay enough of peaches in the bottom of the preserving kettle to cook them until they are tender and transparent. Lift out the fruit carefully and place it without breaking it into jars. Crack some of the stones and extract the kernels, which add to the sirup, and cook for fifteen minutes more. Now add half a cupful of brandy to each pound of fruit and take at once from the fire. Strain the hot sirup and pour it over the peaches in the jars. Seal at once.

The number of birds imported into the United States annually amounts to about 500,000, and as many as 17,000 have become dwellers in America within one day. The half million feathered strangers represent 1,800 different species, but the greater number of the importations are of canaries, parrots and game birds.

The sale will be held upon the premises at the hour named when terms and conditions will be made known by the undersigned. The real estate is sold pursuant to an order of the Court of Common Pleas of Adams County, extend on the 18th day of October, 1915. For further information apply to

OF GETTYSBURG

It is therefore for the country voters to say, on Nov. 2nd, whether or not they want an associate in their business to also preside over the legal end of their welfare.

Most naturally Mr. Butt solicits the support of his farmer friends, but he also solicits that of every business and professional man in the district. Of practical legal training, his ability as a Jurist is unquestioned.

Mr. Butt's investments have been chiefly in farms, and it has been through this that he has been brought close to the farmer and his needs. He is a large employer of farm labor, having continuously in his employ, from 40 to 80 men, and it is but natural that the farmers of the district give him their hearty support.

Mr. Butt has given you a fair, square answer to the license questions, that he will "impartially and conscientiously" do his duty under the law and the decision of the higher courts. Every voter can understand this. It is the only proper answer that a candidate should give under the law and decisions of the Superior and Supreme Courts.

PEACE RUMOR AGAIN REVIVED

It Is Said Germany Will Submit Proposals.

STORY COMES FROM MADRID

Outline of Conditions to be Submitted to Spain and President Wilson is Report.

London, Oct. 27.—A report reached here that Prince von Buelow, former German chancellor, will shortly submit to President Wilson and King Alfonso, of Spain, an outline of the conditions on which Germany might be disposed to discuss terms of peace.

The report is contained in a Reuter despatch from Madrid, and has not been corroborated from any other source. The despatch gives as authority Prince Camperore, an Italian nobleman who is a brother-in-law of Prince von Buelow. The report was first published in Madrid, the correspondent says, in the form of a message from Rome.

(At last reports Prince von Buelow was ill. A message from Berlin Sunday said he was confined to his room in Cologne as the result of a slight indisposition. The prince was on the way to Baden-Baden.)

No Peace Talk in Germany

Berlin, Oct. 27.—While news despatches from London and other capitals in Europe and foreign newspapers contain many references to an alleged revival of peace talk in Berlin, and in Germany in general, a careful perusal of the German press fails to reveal any outspoken desire for peace.

Editorials in the official press are more insistent than ever that no peace be thought of until the foes of Germany are definitely vanquished.

The press is jubilant over the political crisis in England and in France, as well as over Britain's trouble in recruiting and over the success of German diplomacy in the Balkans.

The Hamburger Nachrichten, the Koelnische Zeitung, the Vossische Zeitung, the Koelnische Volkszeitung, the Berliner Lokal-Anzeiger, the Hamburger Fremdenblatt, the Kreuzzeitung and the Post all repeat that victory is near and that there should be no peace talk before Germany's enemies are willing to concede German supremacy and the right of Germany to hold the conquered territory in Belgium and France, in Poland and in the Baltic provinces. These papers all insist that the French must be deprived of their African colonies, Turkey rehabilitated at England's expense and Austria placed in supreme control of the eastern littoral and the Adriatic.

The Rheinisch-Westfaelische Zeitung states that the only conditions of peace are the following:

"Austria to annex the greater part of Serbia; Belgium to become definitely German, with the exception of a small corner, which Holland will be allowed to occupy.

"France to be deprived of her fortified places.

"Russia to lose Finland, the Baltic provinces, Bessarabia, Poland, the Crimea and portions of the Caucasus.

England must abandon her Mediterranean possessions as well as Egypt and practically all of her colonies. India to become a semi-independent state under German protection.

AMERICAN SLAIN IN MEXICO

Fate of His Son and Daughter is Not Known.

Jerseyville, Ill., Oct. 27.—Isaac R. Ely, of this city, was shot and killed by Mexicans at Eban, Mexico, in May, according to messages received by relatives. The fate of a son and a daughter of Mr. Ely has not yet been learned.

Ely owned oil fields near Eban and a coffee plantation near Tampico. Six months ago he wrote to his mother in Jerseyville that his plantation had been raided, his horses stolen, his yacht sunk and other personal property taken. That was the last letter Mrs. Ely received from him.

SPY SHOT IN LONDON

Prisoner's Appeal Dismissed and Execution Was Carried Out.

London, Oct. 27.—The following official announcement of a military execution was issued:

"A prisoner who was tried on the serious charge of espionage was found guilty and sentenced to death by being shot. The prisoner appealed and the court of criminal appeal, on October 18 dismissed the appeal.

"The sentence was carried out by the military authorities."

Noted Aviator Killed

Geneva, Oct. 27.—Word has reached here from Basel of the death of the German aviator Reiger, who is said to have established a world's record by flying with passengers to an altitude of 5500 meters. He was killed by the fall of his aeroplane.

British Ship Torpedoed

London, Oct. 27.—A despatch from Plymouth to Lloyd's states that the Canadian steamship Donnacona has been sunk by a German submarine. No mention is made as to the safety of the crew.

SHOT FATHER: SAVED MOTHER

Thirteen-Year-Old Boy Surrenders to Police After Wounding Parent.

Wilkes-Barre, Pa., Oct. 27.—Raymond Barnhart, thirteen years old, walked into the town hall at Forty Fort, near here, and told the police he shot his father, William Barnhart, at the home of his aunt, when his father attacked his mother.

The victim of the shooting has been in a hospital in serious condition, and until the boy confessed, the shooting was a mystery.

The boy told the police his father attempted to attack his mother. The woman, with her three children, rushed to the home of her sister. The husband followed and again attempted to attack her. The boy says he knew where his aunt kept a revolver and obtained it. The father saw him with the weapon and made a grab for it, but the boy pulled the trigger and it bullet hit his father in the head.

Raymond was held pending an investigation.

FELLOWS FORCED FORNEY'S HAND

"Tired of Being Blackmailed," He Says.

Pittsburgh, Oct. 27.—Thomas C. Forney, a lawyer of Washington, who pleaded guilty to conspiracy and to assaulting his father-in-law, T. Franklin Schneider, a millionaire candy manufacturer, also of Washington, in a hotel here last June, testified at the trial of William Bowers, another of the alleged conspirators, that he agreed to pay \$4000 to Bowers, George McHenry and H. C. Carlisle if they would kill Schneider.

Forney said the agreement was in writing, and it passed into the hands of McHenry, who, Forney said, refused to return it to him when he gave up the idea of "putting Schneider out of the way."

"I was through with it. I was tired of being blackmailed, I was almost driven crazy," said Forney.

The "death agreement," drawn up by Forney April 1, was introduced as evidence. It read, "I agree to give Bill and George \$4000 to put the man out of the way." Forney, while on the stand, said "Bill" was William Bowers and "George" was McHenry.

McHenry testified that he and Bowers never intended to slay Mr. Schneider, saying they only desired to get Forney's "soft" money. The taking of testimony was completed and the case will go to the jury today.

SHELL HIT NEAR WARSHIP

U. S. S. Panther Had Narrow Escape in Naval Maneuvers.

New York, Oct. 27.—The repair ship Panther, U. S. N., had a narrow escape from being hit by a 14-inch shell fired from the proving grounds at Sandy Hook.

The large projectile flew directly over the Panther and struck in the ocean, about a mile beyond the vessel.

The Panther, with other vessels taking part in the maneuvers off the coast, composed a fleet defending the entrance to New York harbor. These vessels came within range of a 14-inch gun, which is being tested at the proving grounds.

Two New Haven Directors Resign

New York, Oct. 27.—Henry K. McHarg and Frederick P. Brewster, directors of the New York, New Haven and Hartford Railroad, now on trial with nine former directors of the road under the Sherman anti-trust law, have resigned from the New Haven directorate.

Aids and Abets Disease.

Doctors have learned that worry means insomnia, nervous dyspepsia, hysteria, that it weakens the bodily defenses and aids the attack of diseases of microbial origin. It is the precursor or predisposing cause of many bodily ills: it is the one thing which saps the patient's vitality—which, broadly speaking, is his power to will to get well.

No Cause for Worry.

A New Jersey pastor announced from the pulpit: "God hasn't any use for a bachelor and neither have I." The bachelors will not be likely to worry over the first part of the assertion until they hear on better authority, and the latter probably will never cause them any concern.—Washington Herald.

YOUR BRONCHIAL TUBES

When a cold settles in the bronchial tubes, with that weakening, tickling cough, immediate treatment is very important. The breath seems shorter because of mucous obstructions; usually fever is present, your head jars with every cough and your chest may ache. This is no time for experimenting or delay—you must get Scott's Emulsion at once to drive out the cold which started the trouble, and it will check the cough by aiding the healing process of the enfeebled membranes.

If you have any symptoms of bronchitis, or even a stubborn cold, always remember that Scott's Emulsion has been relieving this trouble for forty years. It is free from alcohol or drugs. Refuse substitutes.

LOVERS BEFORE THEY HAD MET

Romance That Began In a Siberian Prison.

It was my first night in a Siberian prison. But twenty-two years old, on the very threshold of life, and condemned to spend twenty years—from youth to the beginning of old age—in confinement.

Tick, tick, tick. Some one is rapping on the heating pipe which runs up to the door above. All political prisoners know the code, and I was not long in spelling out the remainder of a sentence. The beginning I had lost.

"—so lonely." I must condense two years into a few sentences. The rapper, occupying a cell directly above mine, was a girl, Anna Vronsky, the daughter of a university professor. She had been sent to Siberia for teaching the peasants. She had been placed in solitary confinement and at the time she made my acquaintance was on the verge of insanity. To save her I exerted myself to the utmost, encouraging her, telling her of escapes of which I had heard and of escapes I invented. For this sympathy she was grateful, and I was not long in turning her gratitude to love.

There is nothing like love to stimulate both hope and endeavor. I spent all my time in planning an escape both for her and me. Escape was not impossible, for the prison system was bad and the prison officials corrupt. It was recapture that I feared. To gain time after leaving the prison and by time distance I hit upon the plan of having dummies in our cells.

This plan I communicated to Anna, suggesting that when the guard brought her meals she should always sit in the same position and answer no questions. This was to get the guard used to what a dummy would be. Anna began the process at once, as I did. By our rapping code other prisoners told us that there was an hour, supper time, when one might walk out of the prison unseen; but, as Anna and I could not rely upon escaping at the same time, we were to meet, if possible, at a distant town where exiles having served their terms were permitted to live.

I made a dummy out of my mattress and my bedclothing. Every time my guard appeared I sat with my head bent on my bed as though in melancholy. I arranged by the code with a prisoner at the end of the corridor that at three coughs from me he was to shriek. One evening I gave the signal. The guard, without relocking my cell, hurried to the prisoner. I set up my dummy and walked out. I succeeded in getting out of the prison without being seen except by one man, who supposed I was a privileged convict. It was very dark, and I hid in a corner of the wall. I had noticed from my cell window a place where one could get on a low building with a chance of escape. Finding a piece of scantling in the prison yard, I used it first to climb the building and next to reach the top of the wall, from which I jumped down and escaped.

My dummy must have worked successfully, for I was not pursued, and I pursued I should surely have been captured. I went to the rendezvous and waited there as long as I dared for Anna Vronsky, but she did not appear. Then I reluctantly made my way to Russia, stopping just beyond the border, where I remained under an assumed name. Indeed, my identity with my former self was unrecognizable. I made a living trading in furs and kept a lookout for escaped prisoners, from some of whom I hoped to hear something of Anna Vronsky.

It seems strange that a man should love and continue to love a girl he has never seen, but there was more between me and my fellow sufferer than between most lovers who had been brought up together. And this is the reason why I remained in what to me was the most dangerous position in Russia, near the Siberian border.

Six years passed. One day I went up to Kara to make purchases and on my way back stopped for supper and the night at a little farmhouse, the only occupants being an old woman and her niece. From the moment I saw the niece I felt that she alone could take the place of my imprisoned love. I chatted with the two women till the aunt went to bed. The girl was about to follow her when I, fancying from a sadness stamped on her face that she might have suffered as a political prisoner, tapped with a lead pencil on the table from force of habit, spelling words that I had often spelled in prison:

"Anna, I love you."

The change in the girl before me was astonishing. She turned first white, then a rosy red.

"Are you?"

"Yes, and you?"

I started forward and clasped her in my arms. Oh, the happiness of that embrace! Except for our hearts beating against each other there was silence. Then I asked her if she would love the real as she had loved the ideal. She said she would.

The woman with whom she lived was no relation to her, and she had been with her only a few months. I took Anna away with me, and we have lived in a comparatively wilderness for each other alone ever since. For a time not even our parents knew where we were, but at last we found means to inform them without risk to ourselves or to them. And now since the work we suffered for may be accomplished we are looking forward to the day when we may resume our identities.

Gray Hair Becomes Dark, Thick, Glossy

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you have darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw his through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

A Concrete Garage Ends Fire Dangers

The floor of a concrete garage cannot become saturated with oil and the walls cannot burn. Your valuable automobile will be protected in an everlasting concrete building. We advise you to use only

ALPHA THE GUARANTEED PORTLAND CEMENT

for all concrete work. Our customers have found that it is easy to do good work with ALPHA because it has exceptional binding power. We guarantee ALPHA to more than meet all standard tests.

ALPHA goes further than cheaper cements, because every ounce is live and active. Chemists test it every hour while it is being made, and guard its strength and purity.

We will tell you how to use ALPHA to secure the best results

Relieves The Worst Cases Of Catarrh

Think "Hymei the Most Wonderful Treatment For Catarrh Ever Discovered."

Do not try to cure catarrh by using sprays or lotions; it cannot be cured in that manner. The only way in which this too common disease can be fully relieved is through a direct application to the affected parts that will kill the bacilli of catarrh and prevent their growth.

Breathing the air of Hymei is the only known method of treatment that can really accomplish this. It is the simplest, most pleasant and probably the most reliable treatment for catarrh that has ever been discovered.

The complete Hymei outfit is inexpensive and consists of an inhaler, dropper and sufficient Hymei to last several weeks. This will effect instant relief in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then an extra bottle of Hymei can be obtained for a trifling sum. It is not alone the best (it might be called the only) method of treating catarrh, but it is also the most economical.

The People's Drug Store have so much confidence in the power of Hymei to relieve catarrh, that they will for a limited time, sell this medicine under their personal guarantee to refund the money if the purchaser can say that it did not benefit.

FARM FOR SALE

I will sell at private sale my farm in Cumberland township, on the Fairfield road, about 1 1/2 miles from Gettysburg. The farm consists of 215 acres, more or less, improved with two story brick dwelling house, large bank barn and out buildings—all in good repair. For further information refer to:
